Opening Bank Accounts in Japan

There are a number of banks in Sendai with branches convenient to Tohoku University's campuses. Below you will find information on opening accounts at two major banks with branches/ATMs in Sendai. Be aware that it may be difficult to receive money transfers from abroad immediately after opening an account. Therefore, we recommend that you bring an international cash card that can be used to withdraw money in Japan.

Note 1: The above are for typical cases. Details may vary depending on the branch.

Note 2: If you have not received your ID yet, you can bring your acceptance notice, letter of acceptance, employment contract, job offer letter, etc. instead.

Note 3: If you do not have your own landline or mobile number, you can enter a number at which you can be reached during the day, such as your laboratory's phone number etc. If you have not been assigned to a laboratory, you will have to call the 77 Bank Head Office yourself 3 to 14 days later to get the results of your screening and make an appointment to return to open the account.

For details, please inquire at any Japan Post Bank or 77 Bank branch.
