(1) Reason for implementation

Tohoku University confirms the safety of all students and staff in the event of major disasters. The university decided to implement the Safety Confirmation System, which uses e-mail to efficiently and smoothly ascertain safety.

(2) Date implemented: October 2014~

(3) Eligibility: All students/staff

(4) Description of system

1. Safety confirmation and emergency messages are sent from the university in the event of a disaster.
2. Messages are sent to the e-mail address you registered.
3. Follow the instructions in the message and contact the university.

(5) Safety Confirmation System Flowchart

1. Send safety confirmation, emergency msg.
2. Receive msg. from university
3. Respond, providing safety status
4. Check safety status in responses

Register an address (requires Tohoku University ID for authentication) through the Student Affairs Information System (students) or Integrated Electronic Authentication System (staff)
(1) Registering e-mail addresses
This system contacts all users by email, so you need only register your e-mail address to receive messages from the university. You can register via the Student Affairs Information System (students) or Integrated Electronic Authentication System (staff).
*Your address for the Digital Campus Mail (DC Mail, implemented October 2014) will already be registered in the Safety Confirmation System.

Students: How to register via the Student Affairs Information System

Safety confirmation messages will be sent to the addresses you enter in "E-mail address 1" and "Forwarding address."
