

TOHOKU
UNIVERSITY

**11th March 2011
M9.0 Earthquake**

The Great East Japan Earthquake

**Devastating
Tsunami**

**Nuclear Power
Plant Accident**

What happened then?

What does the disaster area look like now?

What problems do the victims face now?

What can we do for them?

So many things you can do!!

If you go there, you'll find what to do!!

Join our study tours and volunteer tours!

Tohoku University Volunteer Support Center (SCRUM)

Tohoku University Volunteer Support Center

SCRUM

Hello! We are SCRUM, a student group of Tohoku university volunteer support center.

5.5 years have passed since the Great East Japan Earthquake, but **people in the disaster area need continuous supports**. We would like to tell them our message "we will never forget the earthquake and the people in the damaged area" by visiting the area.

Our aim is to support Tohoku university students' volunteer activities by planning study and volunteer tours. **Though almost all tours are held in Japanese**, many international students have took part in our tours before. **Feel free to apply for our volunteer tours if you are interested in our activities. We will support you with our full efforts!** Moreover, we have offered some tours for international students in ENGLISH before (like picture1) and we're planning to have a volunteer tour in English in November!!

Picture1:
Onagawa Learning Tour on 10th~11th June, 2016

We are currently accepting applications for new SCRUM members. Though our meetings are held in Japanese, you are always welcomed. **If you have any questions about our activities, feel free to contact with us** and please check our website and Facebook!

Types of Volunteering: what can you do?

Support Community
Reformation

Mental Care

Children Support

Traditional Event
Support

And More!!
